

Academic Session 2023/2024, Semester II

CSE442: Software Testing

Assignment: Assessment Rubrics

**Assessment Criteria:**

1. Sufficient test cases with appropriate test design techniques applied (50%)
2. Justified metrics used to monitor the testing progress (50%)

**Report (100%)**

Criteria	A, A- Superior Command	B+, B, B- Good Command	C+, C, C- Fair/Some Command	D+, D, D-, F Poor Command	Marks
Test cases with appropriate test design techniques.	Excellent test case design with appropriate test design techniques applied. Details were presented.	Good test case design with appropriate test design techniques applied. Details were presented.	Fair test case design with poorly justified test design techniques applied. Details were presented.	Poor test case design with poorly justified test design techniques applied. Details were presented.	
Justified metrics to monitor the testing progress.	Excellent metrics design to monitor the testing progress. Details were presented.	Good metrics design to monitor the testing progress. Some details were presented.	Fair metrics design to monitor the testing progress. Details were not well presented.	Poor metrics design to monitor the testing progress. Details were not well presented.	

Your answers to this assignment must be your own work. **You will be assigned 0 marks for this entire assignment if any of your answer bears a close resemblance to other groups' submission.** If a team member does not contribute to the assignment, **0 marks will be given as well.** Thank you.
