Dear Ms Liew Wen Ying
APPLICATION FOR A COMPUTER SCIENCE INTERNSHIP POSITION

I am writing to express my interest computer science internship position at Keysight Technologies. I am confident that my experiences in software developing will make me the best candidate for this position.

Being a Bachelor's Degree of Computer Science from Universiti Sains Malaysia that will graduate soon, I was experienced in programming and software testing such as agile processes and system modelling. With these accomplishments, I am assured that I would be the ideal person to fit this position.

I served as the member of Google Developers Student Club during my times at USM. Back then, I was ambitious to deliver my knowledge to help the club in developing applications for USM students. My undergraduate studies have helped me in learning new programming languages and extra software-related knowledge. These are very helpful in this position.

I believe that these experience will be adding points to make me a perfect fit in this position. Thank you for your time and consideration. I look forward to hearing from you.

Yours sincerely
